PROJECTS

YUMMY - Hotel Website (Frontend Project)

Technologies used: HTML, CSS, JavaScript

- Designed and developed a responsive hotel website called “Yummy” with multiple pages including Home, About, Menu, and Contact.
- Implemented modern UI using CSS for layout, animations, and styling.
- Used JavaScript for form validation and interactive features like image sliders and navigation toggles.
- Focused on clean design, user experience, and mobile responsiveness.

KRCT College Website (Team Project)

Technologies used: HTML, CSS, JavaScript

- Collaborated with a team of classmates to design and develop a website for K.R.C.T College.
- Created a multi-page site showcasing courses, departments, faculty profiles, and contact information.
- Contributed to frontend development, focusing on layout, responsiveness, and user interface design.
